

Family Learning at Thomas Fairchild Community School & Children's Centre

2015/2016

Family Pottery:

For 5 weeks, 7 families took part in family pottery workshops with an experienced potter and tutor, every Monday after school (3.30-5pm). Parents and children worked together and they learnt the basics of ceramics and created some amazing pieces of art to keep at home.

Parents and pupils' comments:

The best part of the course was:

- "Touching clay and making something was a really relaxing time. It was a really good time with my daughter. Thank you very much."
- "Learning how to use clay for the first time."
- "Really exiting to do it with my children"
