

Soaring Skies Federation

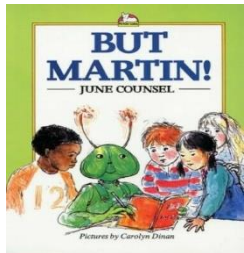

Dear Cubs Class,

We hope you and your family are keeping safe and well. You have worked really hard at home to continue with your learning - well done to all of you!

We will be focusing on how do aliens communicate? Do you have any idea? Do you think they can talk? Or beep! Use non-fiction books and the Internet to research the aliens communicate. Here are some great video links to help you: <https://www.youtube.com/watch?v=dJuPn0Nc2bE>

Watch or read the story of But Martin! by June Counsel: <https://www.youtube.com/watch?v=ohfwEhvR7Mo>

After watching the videos, can you retell the story in your own words to an adult? What happened at the beginning, middle and end?

Imagine that Martin visits your house and spend a day with you. How would you communicate with the alien? Would you talk/beep/bleep/honk? What would you do with him? Where would you take him?

The rest of the home learning activities for this week are on our school website and try to do as much as you can. Also on the website is Nathalie's Launchpad letter with the activities for this week.

Please remember to visit at your allocated time on Monday, 13th July 2020, for the book swap to pick up your report, say goodbye and pick up your profile books.

Always be positive and happy!

Best wishes

The Early Years Team
