Up in the Sky – What is the future of space travel and exploration?

EYFS Prime Areas

Communication & Language Development

What have you learned about space exploration?

Personal, Social & Emotional Development

A short mindfulness video. In this episode of Cosmic Kids Zen Den we learn that we are separate from our feelings. They come and go - and we can observe them - without getting swept up by them. There's a really clever way of remembering this - our mind is like a pond full of fish. The fish are our feelings. If we remember to 'Be The Pond', we'll let those feelings just swim by. Be the Pond!

Balloon Rocket Investigation

You can build a balloon rocket using the diagram below to help you.

Blow up the balloon using a balloon pump and use a peg to keep the air in. Use tape or elastic bands to fix the balloon to the drinking straw. Thread a long length of string through the straw, stretch the string tight and let the balloon go.

Understanding the World

Science Investigation: Make a Balloon Rocket.

You will need a balloon, a straw, some string and some sticky tape. Experiment with balloons and learn how you can make your very own rocket:

Poem of the Week: EYFS Nursery
In The Sky

In The Sky

Tune: The Farmer in the Dell

***The sun is in the sky
The sun is in the sky
Hot and bright it gives us light
The sun is in the sky!***

***The moon is in the sky
The moon is in the sky
Round and round the earth it goes
The moon is in the sky!***

***The stars are in the sky
The stars are in the sky
Far and bright and out at night
The stars are in the sky!***
